JAHVANTE TOTA

Software Engineer | U.S. Permanent Resident | Canadian & Italian Citizen
+1 (312) 735-6139 | jahvanteisatota@gmail.com | LinkedIn | GitHub | Chicago, IL

Computer Science student with practical experience developing full-stack applications, AI-powered solutions, backend systems, and REST APIs. Experienced with Python, JavaScript, TypeScript, React, Node.js, and SQL across client work, technical projects, and collaborative development environments.

EDUCATION

University of London | Bachelor of Science (BSc) in Computer Science — In Progress
App Academy | Full-Stack Software Engineering Program — January 2026 – July 2026
Mia Academy | Front-End Development Bootcamp — November 2024 – November 2025

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Developer & Consultant | Independent — Remote, U.S. & Europe — October 2025 – Present

- Develop web and mobile applications for small businesses and professionals using React, React Native, TypeScript, Node.js, Python, and SQL/NoSQL databases.
- Translate client requirements into technical solutions spanning UI/UX, APIs, authentication, database design, SEO, and website optimization.
- Manage projects from initial requirements and architecture through development, testing, documentation, deployment, and ongoing client revisions.

Backend Developer | FinSight AI (Tech Residency) — Remote, U.S. — May 2026 – July 2026

- Developed backend services and REST APIs using Python, Flask, FastAPI, and Supabase for an AI-powered investment intelligence platform.
- Built market-data workflows and API endpoints to process stock performance data and expose structured insights to the frontend.
- Contributed to AI chat functionality integrating market data with the OpenAI API, and collaborated in a five-person Agile team using GitHub through deployment.

Web Design & Development Intern | Trep DigitalX — Remote, Italy — August 2025 – October 2025

- Led development of a client website project, coordinating another developer and defining design direction, file structure, and development priorities while collaborating with the lead of a parallel team.
- Designed and built a new WordPress website for RIBER Italia Srl from the ground up, defining page architecture, layouts, content, and overall site design to replace the client's existing website.
- Conducted keyword research and on-page SEO, including metadata and content optimization, and managed client feedback through email from initial proposal through final delivery and launch.

SELECTED PROJECTS

Advanced API Development Platform | Flask, SQLAlchemy, JWT, Swagger, Pytest — Developed a secure REST API with JWT authentication, relational data modeling, automated testing, interactive API documentation, CI/CD, and Render deployment. GitHub | API Docs

GameFilter | React, TypeScript, REST APIs — Developed a responsive discovery application integrating external APIs with dynamic filtering and data-driven search functionality, deployed on Vercel. GitHub | Live Demo

E-Commerce Store | React, Express.js, MongoDB — Built a full-stack e-commerce application integrating a React frontend with an Express/MongoDB backend, application state management, cloud image storage, and CI/CD workflows. GitHub | Live Demo

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL
Frontend: React, Next.js, HTML5, CSS3, Vite, React Router, Zustand, Tailwind CSS, Bootstrap, Chakra UI, Sass
Backend: Node.js, Express.js, Flask, FastAPI, REST APIs, JWT, Mongoose, SQLAlchemy
Databases & Cloud: PostgreSQL, MongoDB, MySQL, SQLite, Supabase, Firebase, Cloudinary
Testing & DevOps: Pytest, Jest, Vitest, React Testing Library, GitHub Actions (CI/CD), Render, Vercel
Developer Tools: Git, GitHub, Postman, Swagger/OpenAPI, VS Code, Chrome DevTools, npm, WordPress
Design & Collaboration: Figma, Canva, Adobe Photoshop, Trello, Agile, Scrum
Concepts: Responsive Design, Component-Based Architecture, API Integration, SEO

LANGUAGES

English – Native | Italian – Native | French – Basic | Spanish – Basic
